PROFESSIONAL SUMMARY

Artificial Intelligence student at Delta University for Science and Technology with hands-on Python, data analysis, and machine learning project experience. Built and deployed an interactive dashboard analyzing economic indicators for 20 countries. Interested in internships and entry-level roles involving data preprocessing, exploratory data analysis, predictive modeling, and model evaluation.

TECHNICAL SKILLS

Programming & data: Python, Pandas, NumPy, data cleaning, exploratory data analysis (EDA), feature engineering.

Machine learning: scikit-learn, Linear Regression, Random Forest, supervised learning, unsupervised learning, model evaluation, predictive modeling.

Visualization & tools: Matplotlib, Seaborn, Plotly, Streamlit, Jupyter Notebook, Git, GitHub.

Additional learning areas: SQL, Deep Learning, Neural Networks, NLP, Computer Vision, Generative AI, Large Language Models (LLMs).

PROJECT EXPERIENCE

Global Economic Data Analysis & Forecasting | Python, Pandas, scikit-learn, Streamlit, Plotly

- Developed and deployed an interactive dashboard for GDP growth, inflation, and unemployment across 20 countries from 1990 to 2025.
- Performed data preprocessing, missing-value checks, exploratory analysis, and time-based feature engineering.
- Compared previous-year baseline, Linear Regression, and Random Forest models using historical evaluation.
- Presented experimental 2026 GDP growth estimates with clear limitations and data-quality context.

EDUCATION

Delta University for Science and Technology | Faculty of Artificial Intelligence

Expected graduation: 2028

CERTIFICATIONS & TRAINING

IBM — Deep Learning and Reinforcement Learning | Oct 2026

IBM — Unsupervised Machine Learning | Oct 2026

IBM — Supervised Machine Learning: Classification | Oct 2026

IBM — Exploratory Data Analysis for Machine Learning | Oct 2026

IBM — Supervised Machine Learning: Regression | Oct 2026

Huawei ICT Academy — HCIA-AI V4.0 Course | Aug 2026

Huawei ICT Academy — HCIA-Big Data V3.5 Course | Aug 2026

AI-Bdaya Engineering Masterclass — 60-hour AI / Deep Learning course

Cisco — Security Operations Center (SOC) | May 2026
